

# THE SERVANT'S GRACE

## THE EMPEROR'S CONSPIRACY 3

A tyrannical ruler. A hidden heir. Can a simple handmaiden save her realm from doom?

Lady's maid Shan works for a privileged family, though she longs to see all servants treated fairly. But when she's caught with equality propaganda, no favours can keep her from execution. With no other way to save herself, Shan reveals her ability to turn invisible and agrees to a risky mission spying on the emperor.

Slipping through the palace corridors to collect evidence of the callous monarch's plans, Shan discovers the true heir to the throne may be alive. But with attempts on her mistress's life and the emperor determined to root out any plot against him, even her power to vanish might not be enough to save her.

Can a lowly servant become the key to saving an empire from a bloodthirsty despot?

The Servant's Grace is the thrilling conclusion to the Emperor's Conspiracy fantasy series. If you like determined heroines, high-stakes espionage, and epic power struggles, then you'll love Claire Leggett's action-packed finale.

### ABOUT THE AUTHOR

Claire Leggett has loved dragons, magic and everything fantastical since she read *The Enchanted Wood* by Enid Blyton. As a child she used to sneak to the bottom of the garden in the hope of finding fairies. Alas, she never found any, so she brought them alive in her own imagination. Her stories are full of magic, adventure and escape.

Claire lives in Western Australia and is available for library talks and writing workshops.
